

# TRANSFORMATIVE CHANGE SEMINARS

## Webinar 2: Methodologies for mapping systems interactions

Date: **Thursday 27<sup>th</sup> February 2025**

Time: **11:00-13:00 CET**

Schedule	Agenda	
11:00-11:05	<i>Introduction to the Ecosystems Services Partnership</i>	<b>Luis Inostroza</b> , Ecosystems Services Partnership
11:05-11:20	<i>Mapping life cycle assessment (LCA), natural capital accounting (NCA) and input-output (I/O) methods for biodiversity footprint assessment (CircHive project)</i>	<b>Ira Bhattarai</b> , Natural Resources Institute Finland (LUKE)
11:20-11:25	Q&A	
11:25-11:40	<i>Participatory System Dynamics Modelling exploring the Water, Energy, Food, Transport and Health Nexus approach to enhance Biodiversity resilience under Climate Change—The JUNIPER model (BIONEXT project)</i>	<b>Alexandra Ioannou</b> , University of Thessaly and ATHENA Research Center
11:40-11:45	Q&A	
11:45-12:00	<i>Participatory System Dynamics Modelling to support policy design in the Climate-Biodiversity-Society Nexus (BIOTRAILS project)</i>	<b>Raffaele Giordano</b> , National Research Council of Italy
12:00-12:05	Q&A	
12:05-12:20	<i>Structural Equation Models as a tool to unravel societies motives to adopt sustainable behavior (BIOTRAILS project)</i>	<b>Evangelia Drakou</b> , Harokopeio University of Athens
12:20-12:25	Q&A	
12:25-12:40	<i>Connecting research to practice: Policy labs as innovative cooperation models to co-produce actionable knowledge to support effective land use policies (MOSAIC project)</i>	<b>Anna Verhoeve</b> , Flanders Research Institute for Agriculture, Fisheries and Food (ILVO)
12:40-12:45	Q&A	
12:45-13:00	<i>Conclusions and remarks</i>	<b>Evangelia Drakou</b>
